

Communications Committee Report
HBHTA Annual Meeting
June 11, 2022.

Committee members:

Joanne, Karen, Joe, Agnes (chair), Annie, Ken,
Dare Lewis (website designer).

The primary focus of our committee was to develop a comprehensive website for our High Bar Harbor residents. I hope many of you already visited us at highbarharbor.org and navigated through its many sections, explored our posts, checked for announcements and even paid your membership dues online (Thank you!). At this point we average around 200 visitors per month from places as distant as China and Portugal. This website put High Bar Harbor on the map!

It is our goal that we communicate with you, our members, on a regular basis regarding upcoming events, newsletters, surveys, reports, etc. which is why we have been working diligently on updating everyone's information in our database, especially the email addresses. We promise to only email you when needed and are also hoping to hear back from you with questions or concerns. You can always reach us at hbhtaonlbi@gmail.com

We will continue to develop the content on our website, posting articles that affect the entire island including reports from Resiland LBI, latest developments regarding the proposed wind farms, and minutes from the Joint Council of Taxpayers Association monthly meetings which Joanne and Karen attend on our behalf. The council works on issues such as flooding, EMS and firefighters, biking safety, among many others.

We hope that you will visit our website often throughout the summer months and beyond.
